

hosted by Research Funding Support Team (Specific Task Team)

External Grant Info Session

26 March 2025

08.00-09.00 Sweden / 16:00-17:00 Japan

JST ASPIRE Program

aims to connect top researchers in Japan and advanced STI countries and regions through international joint research, and to accelerate talent circulation across the world.

JST will evaluate the submitted proposals and provide funding to the Japan-based researchers in the selected projects.

For proposals to be eligible, the counterpart researchers in the partner countries/regions must have received or will receive funding from a local funding agency (FA) or their own institute.

Research fields

AI & Information, Biotechnology, Energy, Materials, Quantum, Semiconductors, and Telecommunications.

- JST Tokyo Presentation
- Q&A Session
- Quick Introduction for Other Grants ^{*TBS}
